OLEKSII YERMOLENKO

Trainee JavaScript Full Stack Developer (MERN)

GOAL

To get a Full Stack Developer position at a remote company where I can apply my knowledge of HTML/CSS, JavaScript, React, Node.js and others, as well as deepen my own and develop new development skills under mentorship.

EDUCATION

Jan 2025 – Sep 2025
Completion of the 10-month Full Stack Developer course at GOIT
2000-2005
Dnipro National University. Faculty of Physics

SKILLS

HTML5, CSS3, JS (ES6+) — thorough knowledge, created layouts with Figma, worked with texts, lists, images, have skills in adaptive and cross-browser layout.

VS Code as the main development environment, worked with Vite for project setup and builds, used npm for package management, and Axios for making HTTP requests.

React.js, Node.js (Express.js), MongoDB — basic level

Git/GitHub — I have working skills, used it to save and publish my own projects. I have working skills and practical experience with REST API, used Postman to test REST-API while studying the basics of frontend and backend. Jest — used it, created simple tests for an educational project. Docker — familiar with the platform, created a dockerfile, used Swagger to create documentation for an educational project Familiar with the basics of working with generative AI, the nuances of creating effective prompts.

English — level A2 (can read technical documentation, work with translators; currently improving my English skills)

EXPERIENCE

2025
I am looking to start my career in IT. Highly motivated to gain practical experience and grow as a developer.
2023-2025
Service in the Armed Forces of Ukraine. Participant in combat operations
2010-2023
Sole Proprietor (Computer Equipment Store)
2007-2010
Worked unofficially
2005-2007
Working as a teacher at the local school

ADDITIONAL INFORMATION

I work quickly, able to independently find solutions, even when new tasks arise. Good ability to analyze and structure information.
Honesty, responsibility, willingness to learn and adapt
